Attended by thousands of enthusiasts and a public audience of all ages, NEAF2025 will feature internationally renowned guest speakers including:

- "HOOT" GIBSON, NASA Astronaut: STS Missions
- PETER KING, CBS News correspondent covering space and human launches
- EILEEN COLLINS, First Female Shuttle Commander w/ JONATHAN WARD, Author
- SARA SEAGER, MIT: Searching for Life on Exoplanets
- GERRY GRIFFIN, Apollo Program Flight Director
- JAMIE RANKIN, Voyager: 45th Anniversary
- INGRID DAUBER, Europa Clipper

World Class Speakers

NEAF searches the world to bring you the astronomers, researchers, scientists, and personalities that are making science history today. Nowhere else will you find such an extensive caliber of talent brought together in one place in our beautiful state of the art theater.

NEAF Brings You astronomy workshops, Pro/Am conferences, planetarium shows, book signings, beginner's classes, daily solar observing, music, fun and more.

The 90,000 sq. ft. showroom will be filled with the latest astronomy and optical gear, telescopes of all types and sizes, binoculars, mounts, accessories of every kind, books, toys, and meteors. There are valuable hourly door prize giveaways, amazing raffle prizes, and children's science programs and entertainment, comet-building demonstration, and much more.

ABOUT ROCKLAND ASTRONOMY CLUB

Rockland Astronomy Club, Inc. (RAC), founded in 1958, is one of the East Coast's premiere astronomy clubs and non-profit astronomy education organizations. In addition to NEAF, the club hosts a prominent astro-imaging conference, many lectures, workshops, star parties, planetarium shows, children's programs, and other science and astronomy events.

Northeast Astronomical Society (NAS) is RAC's fundraising entity, created to build an endowment for the Club's educational outreach activities and events.
